Dear Harry,

Thanks mucho for the clipping. Yes, I knew about the collection, in fact, was offered it by Dr. Mummy for \$100,000.00, but can't handle that kind of money, even though it could <sup>have</sup> be paid with a small down payment, and small yearly payments. The trouble was that many of the Santos were fakes, Elmer's variety, and made by other contemporaries, 100 are brand new, many in terrible condition, and Dr. Mummy bought just anything and has horrible taste, and quite a few have been stolen from the morada of Do. New Mexico, and although the way Co. (out of state) in Denver, Colo. can handle that, if a resident of New Mexico can't. However, I saw some good things, and I intend to go to the sale.

Harry, I'll try to buy the death person, Guertey, for you, with <sup>in</sup> reason (price). Then you can pick it up here when you come here this summer. I do have a friend

who also wants me to buy him one. ~~But~~  
However, I ask a favor of you.

I want some petroglyphs or pictographs. If you can't get the 700 lb. petroglyph to Michigan, I'd like to have it, or any other ones, large or small. Can you get me some excellent (exciting) petroglyphs in good condition. You can send them to me collect, I'll pay the bill, or if you can, you can bring some to me this summer. Deer, many birds, great designs, 4 legged animals, suns, etc. Let me please know!

I'm saving the advertisement of the Santa show until Alva comes back from Los Angeles. She took a 1 1/2 week visit and stayed with my family there, and will drive back my mother's 1957 Chevie that has gone only 35,000 miles (not dollars).

So I'll hopefully hear from you soon.

Yours,  
Larry
