

858 Church Street

San Francisco

Dearest Folks,

Your son seems to have  
become a California loafer. I  
have quite forgotten about time,  
and though I am as keen  
as I can be to come home  
and be with you all, still  
I am staying here a few  
days more because the  
mildness of the climate and the  
good rest it is giving me.  
I get up in time for lunch

(some days) and do various  
little things in the afternoons →  
evenings.

I am enjoying the privilege  
of playing at the organ at the  
church - enjoying it because  
a single chord sounds so much  
fuller and more like music  
on an organ than on a piano.

I have written an Easter song  
which George may sing as a  
solo in Church Easter morning.  
Aunt Julia has helped me fix  
up the accompaniment. Walter

I do when I settle down, one  
thing is certain — I am going  
to study music, harmony &  
counterpoint.

I shall probably stay here

another full week — & stop

off at Fresno on my way  
to Los Angeles.

is a remarkably fine girl,  
and I shall enjoy a few  
days ~~with~~ for family.

Will you please forward  
my mail care of Aunt Nellie's

address? I think I

should like to have it.

I need a stenographer for  
six months to write the

letters I wish to write,

now that my trip is ended.

There are friends — wonderful

friends — back along the trail

at so many places,

I hope you are all well.

The folks all send their

love — & I all mine.

Apprentimately

Nellie
